DUZZ

CONCRETE REMOVER

USER FRIENDLY
EQUIPMENT FRIENDLY
ENVIRONMENTALLY FRIENDLY

DUZZ REMOVES CONCRETE build-up from all types of construction equipment: vehicles, handling, finishing, and even your most sensitive components. The magic lies in the unique **pH neutral** formula, meaning you can use it safely onsite without damaging your equipment.

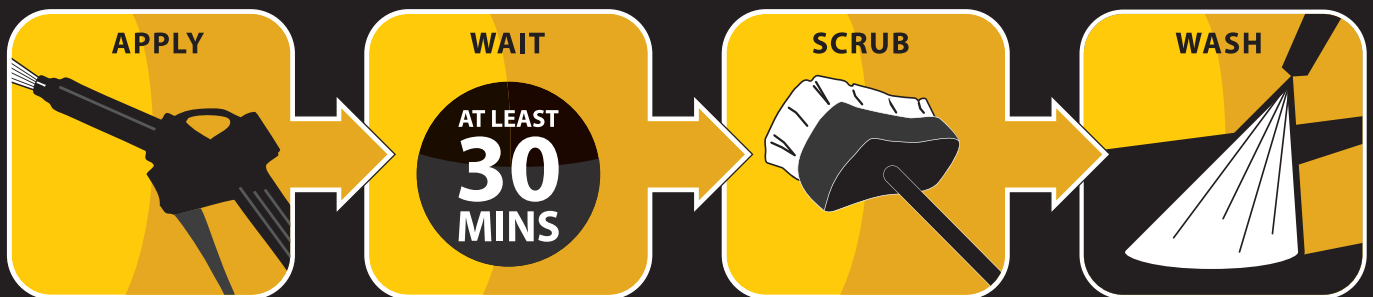

Use on any surface: paintwork, all metals, plastics, paving slabs, bricks, and other common building materials including glass, and cement base materials.

Non-aggressive and **biodegradable**

Eliminate damage to your equipment

Eliminate risk of burns and contamination

Available in **500ml** aerosol cans, **5L** & **20L**

Duzz the trick in just four simple steps:

- 1 Apply liberally onto the area with a spray, or a Duzz foamer.
- 2 Leave for at least 30 minutes (heavy, or old build-ups should be left for longer).
- 3 Assist Duzz by brushing and scraping.
- 4 Wash off with a high-pressure washer.
